

目 次

成矿规律研究及应用

华东片区Ⅳ级成矿单元划分及成矿地质特征	骆学全,孙建东,班宜忠,等(157)
长江中下游成矿带(江苏段)硫铁矿床成矿模式	黄 震,姜 丽,王海欧,等(165)
浙江龙游溪口地区硫铁矿床成矿规律与找矿潜力	刘道荣(172)
华东地区沉积变质型铁矿成矿规律	肖 凡,班宜忠,孙建东,等(179)
华东地区金矿矿床类型划分及成矿系列建立	黄国成,班宜忠,董学发(190)

矿产预测研究及应用

江西省主要矿产预测类型及其地质特征	黄传冠,刘春根,丁少辉,等(196)
江西安远—寻乌地区钨矿成矿地质特征及资源潜力分析	袁 晶,晏俊灵,丁少辉,等(203)
江苏省铜矿资源潜力评价	魏 芳,黄 震,来又东,等(210)
江苏省铜山—石矸山铜钨矿床成矿特征及深部资源预测	来又东,黄 震,黄顺生,等(217)

自然重砂研究及应用

江南隆起成矿带(江西段)自然重砂异常特征及指示意义	张 娟,江俊杰,丁少辉,等(224)
---------------------------------	---------------------

遥感研究及应用

利用密度等值线进行遥感蚀变异常编图	张 洁,苏一鸣,李 明,等(230)
-------------------------	----------------------

其他

安徽省黄山市桃溪地区发现强烈蚀变矿化的陡倾裂隙带	张定源,张晓东,方捷,等(封二)
《资源调查与环境》征稿简则	(封三)

CONTENTS

Research and application of metallogenic regularity

IV metallogenic units division and ore-forming geological characteristics in East China
..... LUO Xue-quan , SUN Jian-dong , BAN Yi-zhong , et al (157)

Metallogenic models of pyrite deposits in the middle and lower Yangtze River metallogenic belt,
Jiangsu Province HUANG Zhen , JIANG Li , WANG Hai-ou , et al (165)

Metallogenic regularity and prospecting potentials of pyrite deposit in Xikou area, Longyou
County, Zhejiang Province LIU Dao-rong (172)

Metallogenic regularity of sedimentary-metamorphic iron deposits in East China
..... XIAO Fan , BAN Yi-zhong , SUN Jian-dong , et al (179)

Deposit type classification and metallogenic series establishment of gold deposits in East China
..... HUANG Guo-cheng , BAN Yi-zhong , DONG Xue-fa (190)

Research and application of mineral prediction

Prediction types and characteristics of main mineral resources in Jiangxi Province
..... HUANG Chuan-guan , LIU chun-gen , DING Shao-hui (196)

Metallogenetic geological characteristics and resource potentials of molybdenum deposits in Anyuan-
Xunwu area, Jiangxi Province YUAN Jing , YAN Jun-ling , DING Shao-hui , et al (203)

Potential assessment of copper resources in Jiangsu Province
..... WEI Fang , HUANG Zhen , LAI You-dong , et al (210)

Metallogenic characteristics and potential evaluation of deep resources in Tongshan-Shidangshan
copper-molybdenum deposit, Jiangsu Province
..... LAI You-dong , HUANG Zhen , HUANG Shun-sheng , et al (217)

Research and application of natural heavy minerals

Natural heavy minerals anomalies and indicative significance of the Jiangxi section of the Jiangnan
uplift metallogenic belt ZHANG Juan , JIANG Jun-jie , DING Shao-hui , et al (224)

Research and application of remote sensing

Remote sensing mapping of alteration anomaly by density contour
..... ZHANG Jie , SU Yi-ming , LI Ming , et al (230)
